FLAT CLASSROOM

Objectives: Edit your video and post it on the wiki.

• edit your video clips to make an effective presentation

• evaluate your video according to the FCP Rubric

• post your video on the wiki according to exact instructions

---

1 Edit Your Video

1)Make sure you include your title, either on the opening screen or after the first clip. Make it short and clever. Also include your name, project/group, and school.
Example:

Connecting the Dots

By Suzie Student
Flat Classroom Project, Group 3C
Los Angeles County High School for the Arts

2)The introduction provides motivating content that hooks the viewer and holds attention.

3)**All shots should be high quality**:
  *<u>Lighting</u> is sufficient to view the action. It is used to set a mood or enhance expressive quality.
  *<u>Audio</u> is appropriate volume and very easy to understand. No distracting noise.
  If background music is used, it needs to be low and balanced.
  *Camera moves smoothly; no shake.
  *Shots are from a variety of angles and framed to add interest.

4)Shots and scenes flow logically and seamlessly. Clips are just long enough to make each point clear. There is no slack or dead time.

5)Use transitions to assist in communicating the main idea and smooth the flow. Most transitions should be <u>cuts</u>.

6)Digital effects are used sparingly, only to assist in communicating.

7)Make sure you include credits at the end. Example:
Connecting the Dots
Written, Produced and Directed by Suzie Student
Outsourced video clip by Jeteva W, Qatar Academy, Qatar
Music by Suzie Student, composed in Garage Band
Flat Classroom Project, Group 3C
Los Angeles County High School for the Arts, USA
Barrie Becker, Teacher
Fall, 2007

Final Video

Format: .mov
Length: Up to 5 minutes NOT INCLUDING CREDITS
Size: preferably less than 30 MB, MUST NOT BE higher than 40 MB.

Video is edited and ready to post.

#2 Evaluate Yourself Using the Judging Criteria
•Attach your rubric to this sheet.

#3 Post Your Video to the Project
All videos must be embedded in the wiki. To do this, embed on a video sharing service like YouTube, Google Video, or Teacher Tube. It must be embedded under your topic heading with the following information underneath it: *(copy the following template)*

Insert video Above

Title - *Insert the title here.*

Summary - *Up to a 50 word summary of your video. (This should make someone want to watch the video.)*

URL - *Insert the direct hyperlink to this video (copy the url from the address bar)*

Producer - *Your first name, last initial*

Location - *School and Country*
Outsourced Video Segment producer - *Insert the first name, last initial, school and country of the student who provided you with the video. This should be credited in full MLA format at the bottom of the wiki, but in brief under the video.*

I have posted my video to the Flatclassroom Project Wiki
